WKF, Brady and Shiloh Host Youth and Violence Symposium

In addition to a keynote presentation by William Kellibrew, the symposium highlighted local and national resource partners who provide direct services to youth and families, in a resource fair.

The resource fair provided attendees with the opportunity to learn about resources and rights availed to them and how to access those resources when needed. These resources included mental health services, youth legal services, civic engagement, women services, law enforcement, support groups and many other areas that support victims and survivors, youth and families.
